

ALBURY DISTRICT

For guidance on planning your revegetation or restoration site (size, shape, species, density of planting) refer to chapters 4 and 5 of this guide, and head to www.revegetation.org.au

Remember: good quality vegetation sites may not need revegetation at all. Appropriate management can encourage natural regeneration.

LANDFORM	Creeks and rivers		Low gently undulating country		Hilly country and ranges	
VEGETATION TYPE	River Red Gum woodland		Box woodland (Yellow Box, Apple Box). Also Blakely's Red Gum woodland.		White Box woodland and Red Gum woodland (Blakely's and Tumbledown Red Gum)
