

For guidance on planning your revegetation or restoration site (size, shape, species, density of planting) refer to chapters 4 and 5 of this guide, and head to www.revegetation.org.au

Remember: good quality vegetation sites may not need revegetation at all. Appropriate management can encourage natural regeneration.

COPPABELLA

LANDFORM	Creeks and depressions		Hills			
VEGETATION TYPE	Forest – eg. Mountain Swamp Gum		Dry sclerophyll forest – Red Stringybark with Long-leaf Box and Silver Bundy; Robertson’s Peppermint with Candlebark.			
GEOLOGY & SOILS	Quartzite, slate, phyllite, greywacke, hornfels and schist. Sandy yellow earths (creeklines) shallow red and yellow earths (hills).					
LOCATION EXAMPLE	Coppabella Creek		Munderoo State Forest			
TREES > 8 m	<i>Acacia dealbata</i> <i>A. melanoxylon</i> <i>Eucalyptus bridgesiana</i> <i>E. camphora</i> <i>E. dives</i> <i>E. viminalis</i>	Silver Wattle Blackwood Apple Box Mountain Swamp Gum Broad-leaved Peppermint Manna Gum	<i>Acacia dealbata</i> <i>A. melanoxylon</i> <i>Brachychiton populneus</i> <i>Callitris endlicheri</i> <i>E. bridgesiana</i> <i>E. dives</i> <i>E. bicostata</i> <i>E. goniocalyx</i> <i>E. macrorhyncha</i>	Silver Wattle Blackwood Kurrajong Black Cypress Pine Apple Box Broad-leaved Peppermint Eurabbie Long-leaf Box Red Stringybark	<i>E. mannifera</i> <i>E. melliodora</i> <i>E. nortonii</i> <i>E. pauciflora</i> <i>E. polyanthemus</i> <i>E. robertsonii</i> <i>E. rubida</i> <i>E. viminalis</i> <i>Exocarpos cupressiformis</i>	Brittle Gum Yellow box Silver Bundy White Sallee Red Box Robertson’s Peppermint Candlebark Manna Gum Native Cherry
