

For guidance on planning your revegetation or restoration site (size, shape, species, density of planting) refer to chapters 4 and 5 of this guide, and head to www.revegetation.org.au

Remember: good quality vegetation sites may not need revegetation at all. Appropriate management can encourage natural regeneration.

KINDRA CREEK

| LANDFORM | Low country | | Sandhills | |
|---------------------|--|--|--|--|
| VEGETATION TYPE | Grey & Yellow Box /White Cypress Pine Woodlands | | Mugga/Red Ironbark, Grey Box & Black Cypress Pine Tall Woodland | |
