

For guidance on planning your revegetation or restoration site (size, shape, species, density of planting) refer to chapters 4 and 5 of this guide, and head to www.revegetation.org.au

Remember: good quality vegetation sites may not need revegetation at all. Appropriate management can encourage natural regeneration.

MAJOR

LANDFORM	Lower slopes		Mid to upper slopes and ridgelines			
VEGETATION TYPE	Red Box woodland		Box and Red Stringybark woodland			
GEOLOGY & SOILS	Riverine deposits of sand, silt, clay and gravel – alluvium. Yellow solonetzic (mottled duplex) and red podzolic (duplex) soils.		Quartzite, slate, phyllite, greywacke, hornfels and schist. Red podzolic (duplex) soils.			
LOCATION EXAMPLE	Pulletop area		Pulletop State Forest			
TREES > 8 m	<i>Acacia implexa</i> <i>Brachychiton populneus</i> <i>Callitris endlicheri</i> <i>Eucalyptus blakelyi</i> <i>E. melliodora</i> <i>E. polyanthemos</i>	Hickory Wattle Kurrajong Black Cypress Pine Blakely's Red Gum Yellow Box Red Box	<i>Acacia dealbata</i> <i>Eucalyptus albens</i> <i>E. goniocalyx</i> <i>E. macrorhyncha</i> <i>E. nortonii</i> <i>E. polyanthemos</i> <i>E. rossii</i> <i>Exocarpos cupressiformis</i>	Silver Wattle White Box Long-leaf Box Red Stringybark Silver Bundy Red Box Scribbly Gum Native Cherry		
SHRUBS 1.5 - 8 m	<i>Acacia decora</i> # <i>A. genistifolia</i> # <i>A. paradoxa</i> # <i>Bursaria spinosa</i> <i>Pultenaea foliolosa</i>	Western Golden Wattle Spreading Wattle Kangaroo Thorn Native Blackthorn Bush-pea	<i>Acacia buxifolia</i> <i>A. lanigera</i> <i>Daviesia latifolia</i> <i>D. leptophylla</i> <i>Dillwynia phyllicoides</i> <i>Gaudium multicaule</i> <i>Grevillea lanigera</i> <i>G. polybractea</i> <i>Persoonia rigida</i> <i>Platylobium formosum</i> <i>Pultenaea foliolosa</i>	Box-leaf Wattle Woolly Wattle Hop Bitter-pea Slender Bitter-pea Small-leaf Parrot-pea Silver Tea-tree Woolly Grevillea Crimson Grevillea Hairy Geebung Handsome Flat-pea Bush-pea
