

For guidance on planning your revegetation or restoration site (size, shape, species, density of planting) refer to chapters 4 and 5 of this guide, and head to www.revegetation.org.au

Remember: good quality vegetation sites may not need revegetation at all. Appropriate management can encourage natural regeneration.

MERRIWAGGA

LANDFORM	Creeklines and Secondary Floodplains		Valleys and Floodplains		Sandplains and Minor Dunefields	
VEGETATION TYPE	Black Box Woodland.		Bimble Box Woodland.		Callitris Mixed Woodland.	
GEOLOGY & SOILS	Black Box woodland with often sparse understorey of grasses or shrubs. Alluvial, heavy brown or grey clays, self-mulching or compact.		Open Bimble Box woodland on floodplains and wide valleys with grassy understorey. Alluvial, red loams.
