

NORTH WAGGA WAGGA

For guidance on planning your revegetation or restoration site (size, shape, species, density of planting) refer to chapters 4 and 5 of this guide, and head to www.revegetation.org.au

Remember: good quality vegetation sites may not need revegetation at all. Appropriate management can encourage natural regeneration.

LANDFORM	River, Creeklines & Low country		Low hills & mid slopes		Upper Slopes & High Hills	
VEGETATION TYPE	River Red Gum Forest		Yellow Box Woodland		White Box Woodland	
GEOLOGY & SOILS	Riverine deposits of clay silt, sand & gravel. Brown & Grey Alluvial Soils		Granite, shale, quartzite & siltstone.
