

For guidance on planning your revegetation or restoration site (size, shape, species, density of planting) refer to chapters 4 and 5 of this guide, and head to www.revegetation.org.au

Remember: good quality vegetation sites may not need revegetation at all. Appropriate management can encourage natural regeneration.

PUDMANS CREEK

LANDFORM	Creeks, Rivers and Low Country		Flats & Mid Slope		Upper Slopes/Hills	
VEGETATION TYPE	River Red Gum Woodland		Blakely's Red Gum – Yellow Box grassy tall woodland & White Box grassy woodlands		Black Cypress Pine – Red Stringybark, Mugga/Red Ironbark & Red Box shrub/grass open forest
