

For guidance on planning your revegetation or restoration site (size, shape, species, density of planting) refer to chapters 4 and 5 of this guide, and head to [www.revegetation.org.au](http://www.revegetation.org.au)

Remember: good quality vegetation sites may not need revegetation at all. Appropriate management can encourage natural regeneration.

# SCENT BOTTLE - SERPENTINE - UPPER YARRA YARRA

LANDFORM	Flats	Lower slopes	Hills – N and NW aspect		Hills – S and SE aspect	
VEGETATION TYPE	Blakely's Red Gum woodland	Box woodland – Yellow Box and Red Box	Red Box and Red Stringybark dry sclerophyll forest		Moist open forest
