

For guidance on planning your revegetation or restoration site (size, shape, species, density of planting) refer to chapters 4 and 5 of this guide, and head to [www.revegetation.org.au](http://www.revegetation.org.au)

Remember: good quality vegetation sites may not need revegetation at all. Appropriate management can encourage natural regeneration.

# UPPER KYEAMBA

LANDFORM	Creeklines and flats		Low to mid slopes		Upper slopes	
VEGETATION TYPE	Blakely's Red Gum and Yellow Box woodland		Blakely's Red Gum		Red Box/Red Stringybark woodland
